Subsidiaries in the United Kingdom and Germany

The databases

The German-British Chamber of Industry & Commerce compiles and regularly updates its comprehensive databases of German subsidiaries in the United Kingdom and British subsidiaries in Germany. These databases contain details of over 4,000 companies including more than 1,300 subsidiaries in the UK and some 750 subsidiaries in Germany, together with their respective parent companies.

The databases 'German Subsidiary Companies in the United Kingdom' & 'British Subsidiary Companies in Germany' are available in two formats:

The databases contain companies (limited (ltd), public limited (plc), *GmbH* and *AG*), partnerships, branches and joint ventures. As far as possible, information on the subsidiary covers name, address, telephone and fax number, email, website, number of employees, turnover, year of foundation, type of company and industrial sector or product/service area. The parent companies are listed with their name, address, telephone/fax number, email and website.

The list allows the user great flexibility. It is possible to run specific queries and searches (e.g. by industry codes, turnover bands, geographical location etc.), which makes the database ideal for individual purposes (e.g. mailings).

The information is delivered as an Excel database for easy import into different software.

Standard / Tailor-made Lists

A standard list of the German subsidiaries in London is available in pdf format at a fixed price. The Chamber can compile tailor-made listings of German or British subsidiaries (by product area and/or geographical location).

These lists are available as Excel files and will contain up to 10 addresses.
