

## ***High-Precision Steel Castings – Customised Solutions for Various Industries***

|                               |   |
|-------------------------------|---|
| <b>Description</b>            | <p>Founded in 1996, L+S Präzisionsguß GmbH is a family-owned manufacturer specialising in the production of precision cast components made from high-quality steels and alloys. Since 2025, the second generation has been leading the company, ensuring continuity, technical expertise, and a strong focus on quality. With 28 employees, L+S combines flexibility, craftsmanship, and innovation to deliver customised casting solutions for diverse industrial requirements.</p> <p>The company's core competencies lie in processing unalloyed, alloyed, and high-alloy cast steels as well as nickel- and cobalt-based alloys. Castings can be supplied in different forms: as raw parts, fully machined components, or tested and ready-to-install solutions. Production ranges from single prototypes to mass production of up to 100,000 parts, with weights between 0.5 and 750 kilograms.</p> <p>L+S Präzisionsguß products are used across a wide spectrum of industries. Applications include pumps and compressors, vehicles, railway carriages, and processing machines for the food, pharmaceutical, and industrial sectors. Further areas of use are mechanical engineering, the petrochemical and defence industries, and restoration projects such as historical water pumps and railings.</p> |
| <b>Type of company</b>        | Manufacturer of precision steel castings and customised cast components.  |
| <b>Target Industries</b>      | <ul style="list-style-type: none"> <li>• Mechanical engineering</li> <li>• Rail and transport</li> <li>• Defence industry</li> <li>• Petrochemical industry</li> <li>• Processing machinery (food, pharmaceutical, industrial)</li> <li>• Restoration and construction</li> </ul>   |
| <b>Competitive Advantages</b> | <p>+ <b>Flexible production for customised solutions:</b></p> <ul style="list-style-type: none"> <li>• From sample size (1) to mass production of 100,000</li> <li>• From 0.5 KG to 750 KG</li> </ul> <p>+ <b>Castings shipped in various formats:</b></p> <ul style="list-style-type: none"> <li>• Components delivered as raw castings, machined parts, or fully tested, ready-to-install products.</li> </ul>  |

|                               |  |
|-------------------------------|--|
|                               | <ul style="list-style-type: none"> <li>+ <b>Extensive material expertise:</b> <ul style="list-style-type: none"> <li>• Covering steels and special alloys for different applications.</li> </ul> </li> <li>+ <b>Highly skilled interdisciplinary engineering team (foundry, mechanical, automation)</b></li> <li>+ <b>Certified quality assurance</b></li> <li>+ <b>Exceptional lead and delivery times:</b> <ul style="list-style-type: none"> <li>• From design, conception to casting and final production</li> </ul> </li> </ul> |
| <b>Current Export Markets</b> | <p>Exports currently help to generate approximately 35% of the revenue from export markets including:</p> <ul style="list-style-type: none"> <li>• France</li> <li>• Italy</li> <li>• Netherlands</li> <li>• Poland</li> <li>• Switzerland</li> <li>• Spain</li> <li>• Hungary</li> </ul>  |
| <b>Ideal UK Partner</b>       | <p>The ideal partner should have an in-depth knowledge of steel casting solutions and their application across various industries, including rail, defence, and mechanical engineering. With previous experience in steel casting or related materials the agent will understand how customised casting solutions can meet diverse technical needs and be confident in advising clients on how theirs might be met.</p>  |
